Course:	IDS 499 25 - PSYCHOLOGY SEMINAR	Department:	IDS
Responsible Faculty:	William Hagerty	Responses / Expected:	38 / 76 (50%)

Category Instructions: Please keep in mind that student responses on course opinion surveys are often influenced by unconscious and unintentional biases about the race, country of origin or gender of the instructor. National data show that women, instructors of color and instructors from countries other than the U.S. are systematically rated lower in their teaching evaluations than white men from the U.S., even when there are no actual differences in the instruction or in what students have learned. As a college community that seeks to treat all people with respect, please be mindful to avoid biases as you complete your survey.

3	I was in Dr. Turner's seminar group, and she did not update the assignment due dates from the spring, so I turned both assignments in late because I didn't know when they were due.	
4	I did not put that for any prompt.	

5	Classes lasted for about 45 minutes to an hour each time.	
---	---	--

Question:	What aspect(s) of the course helped you most with your learning?	
Response Rate:	31.58% (12 of 38)	

1	the family feeling you get out of the course.	
2	online learning and when speakers came in it was very helpful with my learning!	
3	The interactions with my professor	
4	The clear use of Blackboard and announcements posted on blackboard and in our emails when there was a change.	
5	Specific topics	
6	Reviewing content relating to psychology serving as a refresher.	
7	Nothing	
8	I liked the group aspect and how we would talk about psychology.	
9	Having guest speakers.	
10	Engaging professors, class discussions, split sections.	
11	Doing things hands on and learning new skills	
12	Being able to meet with and talk with students also in my major	

Question:	What aspect(s) of the course helped you least with your learning?	
Response Rate:	31.58% (12 of 38)	

1	sometimes it was just a little to early for my brain to work.	
2	none.	
3	Zoom	
4	When Blackboard was not updated.	
5	The interactive aspect, how everyone would come together.	
6	The early class time.	
7	Not knowing until the day before class if the class would be in person or online.	
8	N/a	
9	N/A	
10	N/A	
11	It was hard to interact with my instructor but that only because there was so many students.	
12	I feel as though seminar is a waste of my money. As much as I love the professors we do not cover important information for upper classmen to know. We went over APA format and how to schedule classes for the next semester. As a senior, I have went over this almost every semester of me being here	

Question:	What other feedback would you like to provide about the course or the instructor?	

Response Rate: 28.95% (11 of 38)

1	none	
2	n/a	
3	Overall, the class stayed on topic and met expectations.	
4	Not too much feedback.	
5	N/a	
6	N/A	
7	Love all these psychology professors great job!	
8	It's always great having Dr. Will Hagerty as a professor.	
9	I really enjoy Dr.Hagerty's seminar class, he always makes it fun and keeps us up to date with current psychology events. He was fun and easy to get along with and talk to.	
10	I love working with both Hagerty and Shattuck	
11	I liked seminar.

Question: What aspect(s) of the course helped you most with your learning?
Response Rate: 25.00% (1 of 4)

1 Classroom discussions that apply to the content helped me the most. While they fell off topic at the time, they applied to what we were learning. 

Question:	What aspect(s) of the course helped you least with your learning?	
Response Rate:	25.00% (1 of 4)	
1	I think the weekly quizzes could have been turned into other assignments rather than just doing quizzes. While they didn't hurt my learning- I think classwork would have benefited me more.	

Question:	What other feedback would you like to provide about the course or the instructor?	
Response Rate:	50.00% (2 of 4)	
1	Very knowledgeable of the course content and how to teach it to college students.	
2	How he cared when I was going through a difficult time. He kept checking in to make sure that I was doing ok and told me to get the assignment I was struggling with turned in when I was able to.

Question: For any prompt above for which you answered with "disagree" or "strongly disagree," please explain.

Response Rate: 14.29% (1 of 7)

1 I said disagree for being able to succeed in a hybrid or online version of this class simply just because the content is hard. In-person classes would definitely benefit students more.

Question: What aspect(s) of the course helped you most with your learning?

Response Rate: 42.86% (3 of 7)	
1	The videos doing walkthroughs of the content.
2	The lecture videos made it easier to follow along with the book
3	The course calendar having everything mapped out so I could make sure I stayed on track. Dr.Hagerty had online lectures that were way easier to understand than the stats book, so that helped me be able to take my notes and due assignments.

2	Dr. Hagerty is a great professor and I really enjoyed learning stats from him. He made it interesting and helped me understand it better.

Instructions: Please keep in mind that student responses on course opinion surveys are often influenced by unconscious and unintentional biases about the race, country of origin or gender of the instructor. National data show that women, instructors of color and instructors from countries other than the U.S. are systematically rated lower in their teaching evaluations than white men from the U.S., even when there are no actual differences in the instruction or in what students have learned. As a college community that seeks to treat all people with respect, please be mindful to avoid biases as you complete your survey.

1 I think students would struggle to succeed in this class if it were online or hybrid class. I think students would benefit most from in-person. 

Question: What aspect(s) of the course helped you most with your learning?
Response Rate: 42.86% (3 of 7)

1	Videos reviewing the content from class so that we could use it for guidance outside of class	
2	The lecture videos made it a lot easier to follow along with the book	
3	Having the course calendar with all the due dates for the assignments was helpful. It helped having all the dates in one place to look at. Dr.Hagerty also had a key at the bottom that reminded us what acronyms meant what.

Question: What aspect(s) of the course helped you most with your learning?
Response Rate: 28.57% (4 of 14)

1	The content was interesting and relevant, and Professor Hagerty presented it in a way that kept me wanting to learn.	
2	I found the blackboard samples and examples most helpful.	
3	Getting feedback from Professor Hagerty/him always leaving room for questions	
4	Class Discussions	

Question:	What aspect(s) of the course helped you least with your learning?
Response Rate:	21.43% (3 of 14)

1	N/A	
2	N.A	
3	I struggled with the week-long late policy as it made me feel like assignments were less of a priority compared to other classes, and I almost always procrastinated.	

Question:	What other feedback would you like to provide about the course or the instructor?
Response Rate:	21.43% (3 of 14)

1	This course with Professor Hagerty effectively prepares students for being a part of the workforce after graduation. Professor Hagerty regularly checked-in with the class to ensure everyone was successful and understood our assignments. The resources provided effectively assisted students with assignments for the course.	
2	The (cover letter/resume/grad school research) assignments and the instructor feedback were very helpful for me.	
3	Professor Hagerty is one of the professors who truly care about his students and will treat them as equals... which is rare. He also opens the course up to fit our needs which is especially helpful as the seniors are about to graduate.

Instructions: Please keep in mind that student responses on course opinion surveys are often influenced by unconscious and unintentional biases about the race, country of origin or gender of the instructor. National data show that women, instructors of color and instructors from countries other than the U.S. are systematically rated lower in their teaching evaluations than white men from the U.S., even when there are no actual differences in the instruction or in what students have learned. As a college community that seeks to treat all people with respect, please be mindful to avoid biases as you complete your survey.

1	the powerpoints in general were very helpful as well as the summarizing assignments about each type of therapy.	
2	n/a	
3	Watching Therapy videos than explaining the type of therapy used during the session	
4	The professor's PowerPoint & the textbook.	
5	The analysis that we did!	
6	Powerpoints	
7	In class activities.	
8	I enjoy the humor used in class	
9	Having the PowerPoints to pin out the key things to know of each therapy, the therapeutic process, the therapist's role, the client's experience, the therapist and the client's connection, etc., Therapy is complex to learn about but there is so many interesting elements that makes up each therapeutic methodology.	
10	Being able to discuss as a class

2	This is a great 400 level course for psychology! All of the different types of therapy are very useful and fun to learn about. Professor Hagerty also did really well presenting the material for each class.	
3	This course was enjoyable. I learned a lot in this class and thought the professor did a wonderful job teaching.	

4	This class was an in-person and it was effectively taught, please keep it that way	
5	No complaints here, love the class and wish I would have taken more of your classes. I love the classes because when lecturing you made the whole class laugh with side conversations or on the topic we were learning that week.	
6	Hagerty rocks	
7	Dr. Hagerty is a great professor with a great personality who connects with studnets and makes classes enjoyable.
